Section 147.105 Midnight Census Report

- a) The census recorded must reflect the complete activities which took place in the 24 hour period from midnight to midnight.
- b) The facility is required to compile a midnight census report daily. The information to be contained in the report includes:
 - 1) Total licensed capacity.
 - 2) Current number of residents in-house.
 - 3) Names and disposition of residents not present in facility, i.e. therapeutic home visit, home visit, hospital (payable bedhold), hospital (non-payable bedhold), other.

(Source: Amended at 18 Ill. Reg. 4271, effective March 4, 1994)

Section 147.125 Nursing Facility Resident Assessment Instrument

- a) Except as specified in subsection (b) of this Section, all Medicaid certified nursing facilities shall comply with the provisions of the current federal Long Term Care Resident Assessment Instrument User's Manual, version 2. (Centers for Medicare and Medicaid Services, 7500 Security Boulevard, Baltimore, Maryland 21244 (December 2005), and the Resident Assessment Instrument Mental Health version 2 (July 2003), adopted from Minimum Data Set Mental Health version 2. This incorporation by reference includes no later amendments or editions.)
- b) Nursing facilities shall, in addition, comply with the following requirements:
 - 1) Complete a full Minimum Data Set (MDS) assessment, which includes required items A through R, in addition to any State required items, for each resident quarterly, regardless of the resident's payment source. Facilities are not required to complete and submit the MDS Quarterly Assessment Form. When completing the full MDS assessment for quarterly submittal to the Department, it is not necessary to also complete the Resident Assessment Protocols (RAPs) or Sections T. RAPs and Section T are only required with the comprehensive assessment as described in the current federal Long Term Care Resident Assessment Instrument User's Manual, which includes assessments completed at admission, annually, for a significant change or for a significant correction of a prior MDS.
 - 2) Transmit electronically to the State MDS database the MDS for all assessments within 31 days after the completion date of the assessment. Except for nursing facilities that are defined as Class I Institutions for Mental Diseases (IMDs) pursuant to 89 Ill. Adm. Code 145.30, the rate set will be based on the MDS received two quarters prior to the rate effective date and MDS not received within 31 days will be given a default rate.
- c) While a new rate system referenced in Section 147.150 is under development, Medicaid-certified Class I IMDs shall electronically submit both the MDS pursuant to subsections (a) and (b) of this Section and the Illinois Minimum Data Set-Mental Health (IL MDS-MH) as specified by the Department at the following frequencies:
 - 1) Complete a full IL MDS-MH within 14 days after admission for each resident, regardless of the resident's payment source.

- 2) Complete a full IL MDS-MH at 90 days after admission for each resident, regardless of the resident's payment source.
- 3) Complete a full IL MDS-MH at six months after admission for each resident, regardless of the resident's payment source, and every six months thereafter.
- 4) Transmit electronically to the Department's IL MDS-MH database, the IL MDS-MH for all required assessments within 31 days after the completion date of the assessment.

(Source: Amended at 30 Ill. Reg. _____, effective September 11, 2006)

Section 147.150 Minimum Data Set (MDS) Based Reimbursement System

- a) Public Act 92-0848 requires the Department to implement, effective July 1, 2003, a payment methodology for the nursing component of the rate paid to nursing facilities. Except for nursing facilities that are defined as Class I Institutions for Mental Diseases (IMDs) pursuant to 89 Ill. Adm. Code 145.30, reimbursement for the nursing component shall be calculated using the Minimum Data Set (MDS). Increased reimbursement under this payment methodology shall be paid only if specific appropriation for this purpose is enacted by the General Assembly. For Class I IMDs, the nursing component shall be the rate in effect on June 30, 2005 until a payment methodology using the Illinois Minimum Data Set-Mental Health (IL MDS-MH), appropriate for the care needs of the IMD resident population, is implemented. The payment methodology using the IL MDS-MH shall be implemented no later than July 1, 2007.
- b) The nursing component of the rate shall be calculated annually and may be adjusted quarterly. The determination of rates shall be based upon a composite of MDS data collected from each eligible resident in accordance with Section 147. Table A for those eligible residents who are recorded in the Department's Medicaid Management Information System as of 30 days prior to the rate period as present in the facility on the last day of the second quarter preceding the rate period. Residents for whom MDS resident identification information is missing or inaccurate, or for whom there is no current MDS record for that quarter, shall be placed in the lowest MDS acuity level for calculation purposes for that quarter. The nursing component of the rate may be adjusted on a quarterly basis if any of the following conditions are met:
 - 1) Total variable nursing time for a rate quarter as calculated in subsection (c)(1) of this Section exceeds total variable nursing time calculated for the previous rate quarter by more than five percent.
 - 2) Total variable nursing time for a rate quarter as calculated in subsection (c)(1) of this Section exceeds:
 - A) total variable nursing time as calculated for the annual rate period by more than ten percent;
 - B) total variable nursing time as recalculated and adjusted for the annual period by more than five percent.
 - 3) Total variable nursing time for a rate quarter as calculated in subsection (c)(1) of this Section declines from the total variable nursing time as calculated for the annual period by more than five percent. No quarterly

nursing component rate reduction shall exceed five percent from the previous rate quarter.

- c) Per diem reimbursement rates for nursing care in nursing facilities consist of three elements: variable time reimbursement; fringe benefit reimbursement; and reimbursement for supplies, consultants, medical directors and nursing directors.
- 1) Variable Time Reimbursement. Variable nursing time is that time necessary to meet the major service needs of residents that vary due to their physical or mental conditions. Each need level or specific nursing service measured by the Resident Assessment Instrument is associated with an amount of time and staff level (Section 147. Table A). Reimbursement is developed by multiplying the time for each service by the wage(s) of the type of staff performing the service except for occupational therapy, physical therapy and speech therapy. If more than one level of staff are involved in delivering a service, reimbursement for that service will be weighted by the wage and number of minutes allocated to each staff type. In calculating a facility's rate, the figures used by the Department for wages will be determined in the following manner:
- A) The mean wages for the applicable staff levels (RNs, LPNs, certified nursing assistants (CNAs), activity staff, social workers), as reported on the cost reports and determined by regional rate area, will be the mean wages.
- B) Fringe benefits will be the average percentage of benefits to actual salaries of all nursing facilities based upon cost reports filed pursuant to 89 Ill. Adm. Code 140.543. Fringe benefits will be added to the mean wage.
- C) The base wage, including fringe benefits, will then be updated for inflation from the time period for which the wage data are available to the midpoint of the rate year to recognize projected base wage changes.
- D) Special minimum wage factor. The process used in subsection (c)(1)(A) of this Section to determine regional mean wages for RNs, LPNs and CNAs will include a minimum wage factor. For those facilities below 90% of the Statewide average, the wage is replaced by 90% of the Statewide average.
- E) Beginning January 1, 2007, facilities shall be paid a rate based upon the sum of the following:

- i) the facility MDS-based rate multiplied by the ratio the numerator of which is the quotient obtained by dividing the additional funds appropriated specifically to pay for rates based upon the MDS nursing component methodology above the December 31, 2006 funding by the total number of Medicaid patient days utilized by facilities covered by the MDS-based system and the denominator of which is the difference between the weighted mean rate obtained by the MDS-based methodology and the weighted mean rate in effect on December 31, 2006.
 - ii) the facility rate in effect on December 31, 2006, which is defined as the facility rate in effect on December 31, 2006 plus the Exceptional Care per diem computed in 89 Ill. Adm. Code 140.569(a)(1), multiplied by one minus the ratio computed in Section 147.150(c)(1)(E)(i). The Exceptional Care reimbursement per diem effective January 1, 2007 computed in 89 Ill. Adm. Code 140.569 shall be included in the nursing component of the June 30, 2006 rate unless the total variable nursing time for a rate quarter as calculated in subsection (c)(1) of this Section is more than a five percent drop from the total variable nursing time calculated for the June 30, 2006 rate quarter. Then the facility will receive for the rate period zero percent of the Exceptional Care reimbursement per diem computed in 89 Ill. Adm. Code 140.569.
- F) The amount of new funds allocated for MDS reimbursement methodology for Fiscal Year 2007, beginning January 1, 2007, is \$30 million.
- 2) Vacation, Sick Leave and Holiday Time. The time to be added for vacation, sick leave, and holidays will be determined by multiplying the total of Variable Time by 5%.
- 3) Special Supplies, Consultants and the Director of Nursing. Reimbursement will be made for health care and program supplies, consultants required by the Department of Public Health (including the Medical Director), and the Director of Nursing by applying a factor to variable time and vacation, sick leave and holiday time. (A list of consultants required by the Department of Public Health can be found in 77 Ill. Adm. Code 300.830).

- A) Supplies will be updated for inflation using the General Services Inflator (see 89 Ill. Adm. Code 140.551). Health care and program salaries shall be updated for inflation using the Nursing and Program Inflator (see 89 Ill. Adm. Code 140.552). A factor for supplies will be the Statewide mean of the ratio of total facility health care and programs supply costs to total facility health care and programs salaries.
 - B) The Director of Nursing and the consultants will be updated for inflation using the Nursing and Program Inflator (see 89 Ill. Adm. Code 140.552). A factor for the Director of Nursing and consultant costs shall be the Statewide mean of the ratio of all facilities' Director of Nursing and consultant costs to total facility health care and programs salaries.
 - C) These costs shall be updated pursuant to cost reports as referenced in 89 Ill. Adm. Code 153.125(f).
- d) Determination of Facility Rates.
An amount for each resident will be calculated by multiplying the number of minutes from the assessment by the appropriate wages for each assessment item (see subsection(c)(1) of this Section), adding the amounts for vacation, sick and holiday time (see subsection (c)(2) of this Section), and supplies, consultants, and the Director of Nursing (see subsection (c)(3) of this Section). The average of the rates for eligible residents assessed will become the facility's per diem reimbursement rate for each eligible resident in the facility.
- e) A transition period from the payment methodology in effect on June 30, 2003 to the payment methodology in effect July 1, 2003 shall be provided for a period not exceeding December 31, 2006, as follows:
 - 1) MDS-based rate adjustments under this Section shall not be effective until the attainment of a threshold. The threshold shall be attained at the earlier of either:
 - A) when all nursing facilities have established a rate (sum of all components) which is no less than the rate effective June 30, 2002, or
 - B) January 1, 2007.

- 2) For a facility that would receive a lower nursing component rate per resident day under the payment methodology effective July 1, 2003 than the facility received June 30, 2003, the nursing component rate per resident day for the facility shall be held at the level in effect on June 30, 2003 until a higher nursing component rate of reimbursement is achieved by that facility.
- 3) For a facility that would receive a higher nursing component rate per resident day under the payment methodology in effect on July 1, 2003 than the facility received June 30, 2003, the nursing component rate per resident day for the facility shall be adjusted based on the payment methodology in effect July 1, 2003.
- 4) Notwithstanding subsections (e)(2) and (3) of this Section, the nursing component rate per resident day for the facility shall be adjusted in accordance with subsection (c)(1)(E) of this Section.

(Source: Amended at 30 Ill. Reg. _____, effective September 11, 2006)

Section 147.175 Minimum Data Set (MDS) Data Integrity

- a) The Department shall conduct reviews to determine the accuracy of resident assessment information transmitted in the Minimum Data Set (MDS) that are relevant to the determination of reimbursement rates. Such reviews may, at the discretion of the Department, be conducted electronically or in the facility.
- b) The Department shall quarterly select, at random, a number of facilities in which to conduct on-site reviews. In addition, the Department may select facilities for on-site review based upon facility characteristics, past performance, or the Department's experience.
- c) Electronic review. The Department shall conduct quarterly an electronic review of MDS data for eligible individuals to identify facilities for on-site review.
- d) On-site review. The Department shall conduct an on-site review of MDS data for eligible individuals.
 - 1) On-site reviews may be conducted with respect to residents or facilities that are identified pursuant to subsection (b) or (c) of this Section. Such review may include, but shall not be limited to, the following:
 - A) Review of resident records and supporting documentation, as identified in Section 174.200, observation and interview, to determine the accuracy of data relevant to the determination of reimbursement rates.
 - B) Review and collection of information necessary to assess the need for a specific service or care.
 - C) Review and collection of information from the facility that will establish the direct care staffing level.
 - 2) The number of residents in any selected facility for whom information is reviewed may, at the sole discretion of the Department, be limited or expanded.
 - 3) Upon the conclusion of any review, the Department shall conduct a meeting with facility management to discuss preliminary conclusions of the review. If facility management disagrees with those preliminary conclusions, facility management may, at that time, provide additional documentation to support their position.

- e) Corrective action. Upon the conclusion of the review and the consideration of any subsequent supporting documentation provided by the facility, the Department shall notify the facility of its final conclusions, both with respect to accuracy of data and recalculation of the facility's reimbursement rate.
 - 1) Data Accuracy
 - A) Final conclusions with respect to inaccurate data shall be referred to the Department of Public Health.
 - B) The Department, in collaboration with the Department of Public Health, shall make available additional training in the completion of resident assessments and the coding and transmission of MDS records.
 - 2) Recalculation of Reimbursement Rate. The Department shall determine if reported MDS data or facility staffing data that were subsequently determined to be unverifiable would cause the direct care component of the facility's rate to be calculated differently when using the accurate data. No change in reimbursement required as a result of a review shall take effect before July 1, 2004. A facility's rate shall only be recalculated on those residents who have been subject to a Department review. A facility's rate will be subject to change if the recalculation of the direct care component rate, as a result of using MDS data that are verifiable:
 - A) Increases the rate by more than one percent. The rate is to be changed, retroactive to the beginning of the rate period, to the recalculated rate.
 - B) Decreases the rate by more than one percent. The rate is to be changed, retroactive to the beginning of the rate period, to the recalculated rate.
 - C) Decreases the rate by more than ten percent in addition to the rate change specified in this subsection (e)(2). The direct care component of the rate shall be reduced, retroactive to the beginning of the rate period, by \$1 for each whole percentage decrease in excess of two percent.
 - 3) Any evidence or suspicion of deliberate falsification or misrepresentation of MDS data shall be referred to the Department's Inspector General and the Department of Public Health.

- f) Appeals. Facilities disputing any rate change may request a hearing pursuant to 89 Ill. Adm. Code 140.830.

(Source: Amended at 30 Ill. Reg. _____, effective September 11, 2006)

Section 147.200 Minimum Data Set (MDS) On-Site Review Documentation

- a) Pursuant to Section 147.175, Department staff shall conduct on-site reviews of Minimum Data Set (MDS) data to determine the accuracy of resident information that is relevant to the determination of reimbursement rates. Pursuant to Section 147.175, Department staff shall conduct on-site reviews of Minimum Data Set (MDS) data to determine the accuracy of resident information that is relevant to the determination of reimbursement rates. Each nursing facility shall make accessible to the Department all provider, resident and other records necessary to determine that the needs of the resident are being met, and to determine the appropriateness of services. The Department shall provide for a program of delegated utilization review and quality assurance. The Department may contract with Medical Peer Review organizations to provide utilization review and quality assurance.
- b) There shall be documentation in the resident's record to support an MDS coded response indicating that the condition or activity was present or occurred during the observation or look back period. Directions provided by the RAI User's Manual (as described in Section 147.125) are the basis for all coding of the MDS. Section S is reserved for additional State-defined items. All documentation requirements pertain to the MDS 2.0 and Section S items.
- c) Each nursing facility shall ensure that MDS data for each resident accurately and completely describes the resident's condition, as documented in the resident's clinical records, maintained by the nursing facility, and the clinical records shall be current, accurate and in sufficient detail to support the reported resident data.
- d) Documentation guidance has been compiled from the RAI Manual, instructions that are present on the MDS 2.0 form itself, RAI-MH, and Illinois additional documentation requirements. If later guidance is released by CMS that contradicts or augments guidance provided in this Section, the more current information from CMS becomes the acceptable standard. If additional ICD9 codes are published, they will be reviewed for appropriateness.
- e) Documentation from all disciplines and all portions of the resident's clinical record may be used to verify an MDS item response. All supporting documentation shall be found in the facility during an on-site visit.
- f) All conditions or treatments shall have been present or occurred within the designated observation period. Documentation in the clinical record shall consistently support the item response and reflect care related to the symptom/problem. Documentation shall apply to the appropriate observation period and reflect the resident's status on all shifts. In addition, the problems that

are identified by the MDS item responses that affect the resident's status shall be addressed on the care plan. Insufficient or inaccurate documentation may result in a determination that the DS item response submitted could not be validated.

g) Disease Diagnoses

- 1) Code only those diseases or infections which have a relationship to the resident's current ADL status, cognitive status, mood or behavior status, medical treatments, nursing monitoring or risk of death as directed in the RAI Manual.
- 2) The disease conditions require a physician-documented diagnosis in the clinical record. It is good clinical practice to have the resident's physician provide supporting documentation for any diagnosis.
- 3) Do not include conditions that have been resolved or no longer affect the resident's functioning or care plan. One of the important functions of the MDS assessment is to generate an updated, accurate picture of the resident's health status.

h) Activities of Daily Living (ADL)

Facilities shall maintain documentation that supports the coding of Section G, Physical Functioning, and Structural Problems on the MDS during the assessment reference period. The documentation shall show the MDS coded level of resident self-performance and support has been met.

i) Restorative specific documentation shall include:

- 1) Documentation shall define the resident's needs and identify a restorative nursing plan of care to assist the resident in reaching and/or maintaining his or her highest level of functioning. Documentation shall contain objective and measurable information so that progress, maintenance or regression can be recognized.
- 2) Goals shall be resident specific, realistic, and measurable. The resident's endurance and ability to participate in the programs shall be addressed.
- 3) Written evidence of measurable objectives and interventions shall be in the resident's care plan, reviewed quarterly, and revised as necessary.
- 4) Written evidence of quarterly evaluation by a licensed nurse shall be in the clinical record.

- 5) There shall be written evidence that staff carrying out the programs have been trained in techniques that promote resident involvement in the activity.
 - 6) There shall be written evidence that techniques are carried out or supervised by members of the nursing staff.
 - 7) Sometimes under licensed nurse supervision, other staff and volunteers will be assigned to work with specific residents. If a volunteer is assigned to a specific resident, there shall be written evidence of specific training in techniques that promote that resident's involvement in the restorative program.
 - 8) Restorative programs shall be ongoing, unless there is written justification in the clinical record that supports the need to discontinue the program.
 - 9) The number of minutes per day spent in a restorative program shall be documented for each resident and for each restorative program during the look back period.
 - 10) The medical record shall also include documentation that restorative nursing services were administered as planned.
 - 11) An assessment designed by the Department shall be required quarterly to assess resident's endurance and ability to benefit from two or more restorative programs.
 - 12) A splint or brace is defined as an appliance for the fixation, union or protection of an injured part of the body.
 - 13) A check and change program will not be scored as a toileting program.
 - 14) All restorative programs provided per criteria of the RAI manual shall be coded on the MDS.
- j) Discharge Planning
- Social services shall document monthly on the resident's potential for discharge, specific steps being taken toward discharge, and the progress being made. Social Service documentation shall demonstrate realistic evaluation, planning, and follow-through. Discharge plans shall address the current functional status of the resident, medical nursing needs, and the availability of family and/or community resources to meet the needs of the resident.

- k) Psychosocial Adaptation Services
Behavioral symptoms shall be assessed and tracked during the look back period. They shall be addressed in the care plan with individualized goals and interventions.
- l) Skills Training
Skills training is specific methods for assisting residents who need and can benefit from this training, to address identified deficits and reach personal and clinical goals. To qualify for reimbursement, the provision of skills training shall meet all of the following criteria:
 - 1) Skills and capabilities shall be assessed with the use of a standardized skills assessment, a cognitive assessment and an assessment of motivational potential. The assessment of motivational potential will assist in determining the type and size of the group in which a resident is capable of learning.
 - 2) Addresses identified skill deficits related to goals noted in the treatment plan.
 - 3) Skills training shall be provided by facility staff, trained in leading skills groups, who are paid by the facility.
 - 4) Training shall be provided in a private room with no other programs or activities going on at the same time. The environment shall be conducive to learning in terms of comfort, noise, and other distractions.
 - 5) Training shall be provided in groups no larger than ten, with reduced group size for residents requiring special attention due to cognitive, motivational or clinical issues, as determined by the skills assessment, cognition and motivational potential. Individual sessions can be provided as appropriate and shall be identified in the care plan.
 - 6) Training shall utilize a well-developed, structured curriculum and specific written content developed in advance to guide each of the sessions. (Published skills modules developed for the severe mentally ill (SMI) and Mental Illness/Substance Abuse (MISA) populations are available for use and as models).
 - 7) The curriculum shall address discrete sets of skill competencies, breaking skills down into smaller components or steps in relation to residents' learning needs.

- 8) The specific written content shall provide the rationale for learning, connecting skill acquisition to resident goals.
 - 9) Training shall employ skill demonstration/modeling, auditory and visual presentation methods, role-playing and skill practice, immediate positive and corrective feedback, frequent repetition of new material, practice assignments between training sessions (homework), and brief review of material from each previous session.
 - 10) There shall be opportunities for cued skill practice and generalization outside session as identified in the care plan and at least weekly documentation relative to skill acquisition.
 - 11) Each training session shall be provided and attended in increments of a minimum of 30 minutes each (not counting time to assemble and settle) at least three times per week. Occasional absences are allowable, with individual coverage of missed material as necessary.
- m) Close and Constant Observations
Coding of this item is intended only for interventions applied in response to the specific current significant need of an individual resident. This item should not be coded for observation conducted as standard facility policy for all residents, such as for all new admissions, or as part of routine facility procedures, such as for all returns from hospital or conducted as part of periodic resident headcounts.
- n) Ancillary Provider Services
- 1) Ancillary provider services are services that are provided by direct non-facility psychiatric service providers in order to meet 77 Ill. Adm. Code, Subpart S requirements.
 - 2) Psychiatric rehabilitation services that are provided by non-facility providers or an outside entity shall meet the needs of the SMI resident as determined by the resident's individual treatment plan (ITP).
 - 3) Facilities must ensure compliance with 77 Ill. Adm. Code, Subpart S, Section 300.4050 when utilizing non-facility or outside ancillary providers.
- o) Psychotropic Medication Monitoring
Facilities are to follow documentation guidelines as directed by 42CFR 483.25(l) (State Operations Manual tags F329, F330, F331).

- p) Dementia Care Unit
 - 1) If the resident has a CPS score of five, care planning shall address the resident's participation in the unit's activities.
 - 2) If a particular resident does not participate in at least an average of four activities per day over a one-week period, the unit director shall evaluate the resident's participation and have the available activities modified and/or consult with the interdisciplinary team.
 - 3) Documentation shall support staff's efforts to involve the resident.
- q) Exceptional Care Services
 - 1) Extensive Respiratory Services
 - A) A respiratory therapist shall evaluate the status of the resident at least monthly if the resident has a tracheostomy.
 - B) Documentation of respiratory therapy being provided 15 minutes a day shall be present in the clinical record for the look back period.
 - C) Respiratory therapy requires documentation in the record of the treatment and the times given by a qualified professional (respiratory therapist or trained nurse) as defined in the RAI manual.
 - 2) Documentation shall be in place to support weaning from the ventilator.
 - 3) Ventilator Care
 - A) If the facility has residents receiving ventilator care, the facility shall have a respiratory therapist available at the facility or on call 24 hours a day.
 - B) A respiratory therapist shall evaluate and document the status of the resident at least weekly.
 - 4) Morbid Obesity
 - A) A Dietician's evaluation shall be completed with evidence of on-going consultation.

- B) On-going monitoring of weight shall be evident.
 - C) The psychosocial needs related to weight issues shall be identified and addressed.
- 5) Wound Care Services
Facilities are to follow documentation guidelines as directed by 42CFR 483.25(c) (State Operations Manual tag F314).
- 6) Traumatic Brain Injury (TBI)
- A) Documentation shall support that psychological therapy is being delivered by licensed mental health professional as described in the RAI manual.
 - B) Documentation shall support a Special Symptom Evaluation program as an ongoing, comprehensive, interdisciplinary evaluation of behavioral symptoms as described in the RAI manual.
 - C) Documentation shall support evaluation by licensed mental health specialist in the last 90 days. This shall include an assessment of a mood, behavior disorder, or other mental health problems by a qualified clinical professional as described in the RAI manual.
 - D) The care plan shall address the behaviors of the resident and the interventions used.
- r) Clarification and additional documentation requirements are as follows:
- 1) Defined actions such as further assessment or documentation, described in the manual, as “good clinical practice” are required by the Department as supporting documentation. Clinical documentation that contributes to identification and communication of a resident’s problems, needs and strengths, that monitors his or her condition on an on-going basis, and that records treatments and response to treatment, is a matter of good clinical practice and is an expectation of trained and licensed health care professionals (RAI page 1-23).
 - 2) The facility shall have in place policies and procedures to address specific care needs of the residents, written evidence of ongoing in-services for staff related to residents’ specific care needs and all necessary durable medical equipment to sustain life and carry out the plan of care as

designed by the physician. In the absence of the above, a referral will be made to the Illinois Department of Public Health.

- 3) No specific types of documentation or specific forms are mandated, but documentation shall be sufficient to support the codes recorded on the MDS. Treatments and services ordered and coded shall be documented as delivered in the clinical record.
- 4) When completing a significant change assessment, the guidelines provided in the RAI Manual shall be followed. This includes documenting “the initial identification of a significant change in terms of the resident’s clinical status in the progress notes” as described on RAI page 2-7.

Section 147.300 Payment to Nursing Facilities Serving Persons with Mental Illness

- a) Reimbursement rates for nursing facilities (ICF and SNF) for program costs associated with the delivery of psychiatric rehabilitation services to residents with mental illness will remain at the level in effect on January 1, 2001, except as may otherwise be provided by 305 ILCS 5/5-5.4 and 89 Ill. Adm. Code 153.
- b) Payment for services provided by nursing facilities for residents who have a primary diagnosis of mental illness will be dependent upon the facility meeting all criteria specified in 77 Ill. Adm. Code 300.4000 through 300.4090.

(Source: Amended at 26 Ill. Reg. 3093, effective February 15, 2002)

Section 147.301 Sanctions for Noncompliance

Based on a finding of noncompliance by the Department of Public Health on the part of a nursing facility with any requirement for providing services to persons with mental illness pursuant to 77 Ill. Adm. Code 300.4000 through 300.4090, the Department may take action to terminate or suspend the facility pursuant to 89 Ill. Adm. Code 140.16 and 140.19 or recommend to the Department of Public Health imposition of any of the remedies or penalties available under the Nursing Home Care Act [220 ILCS 45/3-101].

Section 147.350 Reimbursement for Additional Program Costs Associated With Providing Specialized Services for Individuals with Developmental Disabilities in Nursing Facilities

- a) Nursing facilities (ICF and SNF) providing specialized services to individuals with developmental disabilities, excluding state operated facilities for the developmentally disabled, will be reimbursed for providing a specialized services program for each client with developmental disabilities as specified in 89 Ill. Adm. Code 144.50 through 144.250.
- b) Beginning February 1, 1990, facility reimbursement for providing specialized services to individuals with developmental disabilities will be made upon conclusion of resident reviews that are conducted by the state's mental health authority or their contracted agent. Facility reimbursement for providing specialized services as a result of resident reviews concluded prior to February 1, 1990, will begin with the facility's February billing cycle.
- c) The additional reimbursement for costs associated with specialized services programs is based upon the presence of three (3) determinants. The three determinants are:
 - 1) Minimum Staffing
 - A) Direct Services - Facilities must be in compliance with the Health Care Financing Administration's (HCFA) (42 CFR 442.201 or 42 CFR 442.302 (1989)) and the Illinois Department of Public Health's (IDPH) (77 Ill. Adm. Code 300.1230) minimum staffing standards relative to facility type.
 - B) The number of additional direct services staff necessary for delivering adequate specialized services programs for individuals with developmental disabilities is based upon a full time equivalent (FTE) staff to client ratio of 1:7.5.
 - 2) Qualified Mental Retardation Professional Services
 - A) Each individual's specialized services program must be integrated, coordinated and monitored by a Qualified Mental Retardation Professional (QMRP). Any facility required to provide specialized services programs to individuals with developmental disabilities must provide QMRP services. Delivery of these services is based upon a full-time equivalent ratio of one (1) QMRP to thirty (30) individuals being served.
 - B) A Qualified Mental Retardation Professional (QMRP) is a person who has at least one year of experience working directly with persons with mental retardation and is one of the following:
 - i) A doctor of medicine or osteopathy;
 - ii) A registered nurse;
 - iii) An individual who holds at least a bachelor's degree in one of the following professional categories: Occupational

Therapist; Occupational Therapy Assistant, Physical Therapist, Physical Therapy Assistant, Psychologist, Master's Degree; Social Worker; Speech-Language Pathologist or Audiologist; Recreation Specialist; Registered Dietitian; and Human Services, including but not limited to Sociology, Special Education, Rehabilitation Counseling, and Psychology (42 CFR 483.430(1989)).

- 3) Assessment and Other Program Services
 - A) A comprehensive functional assessment that identifies an individual's needs must be performed as needed to supplement any preliminary evaluations conducted prior to admission to a nursing facility.
 - B) A Comprehensive Assessment must include:
 - i) physical development and health;
 - ii) dental examination that includes an assessment of oral hygiene practices;
 - iii) nutritional status;
 - iv) sensorimotor development/auditory functioning;
 - v) social development;
 - vi) speech and language development;
 - vii) adaptive behaviors or independent living skills necessary for the individual to be able to function in the community (Scales of Independent Behavior (SIB) or the Inventory for Client and Agency Planning (ICAP) are the assessment instruments that must be used for this assessment);
 - viii) vocational or educational skills (if applicable);
 - ix) cognitive development;
 - x) medication and immunization history;
 - xi) psychological evaluation (within 5 years) that includes an assessment of the individual's emotional and intellectual status;
 - xii) capabilities and preferences relative to recreation/leisure activities;
 - xiii) other assessments indicated by the individual's needs, such as physical and occupational therapy assessments;
 - xiv) seizure disorder history (if applicable) with information regarding frequency of occurrence and classification; and
 - xv) screenings (the facility performs or obtains) in the areas of nutrition, vision, auditory and speech/language.
- d) Costs associated with specialized services programs reimbursement includes other program costs such as consultants, inservice training, and other items necessary for the delivery of specialized services to clients in accordance with their individual program plans.

- e) Total program reimbursement for the additional costs associated with the delivery of specialized services to individuals with developmental disabilities residing in nursing facilities will be ten dollars (\$10) per day, per individual being served. Facility eligibility for specialized services program reimbursement is dependent upon the facility meeting all criteria specified in Sections 147.5 through 147.205, 147.350 and 144.25 through 144.250.

(Source: Amended at 16 Ill. Reg. 17332, effective November 6, 1992)

Section 147. TABLE A Staff Time (in Minutes) and Allocation by Need Level

- a) Effective July 1, 2003, each Medicare and Medicaid certified nursing facility shall complete, and transmit quarterly to the Department, a full Minimum Data Set (MDS) for each resident who resides in a certified bed, regardless of payment source. A description of the MDS items referenced in the tables found following subsection (e) of this Table A are contained in the Long Term Care Resident Assessment Instrument User's Manual available from the Centers for Medicare and Medicaid Services, 7500 Security Boulevard, Baltimore, Maryland 21244 (December 2002).
- b) Table A identifies 51 MDS items that shall be used to calculate a profile on each Medicaid-eligible resident within each facility.
- c) The profile for each Medicaid-eligible resident shall then be blended to determine the nursing component of the nursing facility's Medicaid rate.
- d) Each MDS item in Table A includes a description of the item and the variable time referred to in Section 147.150(c)(1). The variable time assigned to each level represents the type of staff that should be delivering the service (unlicensed, licensed, social worker and activity) and the number of minutes allotted to that service item.
- e) Following is a listing of the 51 reimbursable MDS items found in Table A.
 - 1) Base Social Work and Activity
 - 2) Activities of Daily Living (ADL)
 - 3) Restorative Programs

--	----------	---	--

3) Restorative Programs

With the exception of amputation/prosthesis care and splint or brace assistance restoratives, the total number of restorative programs eligible for reimbursement shall be limited to five, with no more than three being a Level II restorative. Scheduled toileting shall be included in this limit. Splint or brace assistance and amputation/prosthesis care shall be reimbursed independently. A resident coded in I1t (CVA/stroke) on the MDS and also coded as B4≤2 (cognitive skills for decision making) shall be limited to a total of six restoratives with no more than four being a Level II restorative. A Department designed assessment shall be required quarterly to assess the resident's endurance and the resident's ability to benefit from two or more restorative programs.

When the number of restoratives coded on the MDS exceeds the allowable limits for reimbursement, the following order shall be used.

- A) Eating Restorative
- B) Scheduled Toileting
- C) Walking Restorative
- D) Transfer Restorative
- E) PROM
- F) Bed Mobility Restorative
- G) Communication Restorative
- H) Dressing/Grooming Restorative
- I) Other Restorative
- J) AROM
